When you make a gift to PIVOT, you invest in the lives of hundreds of thousands of people living in the Ifanadiana District of Madagascar and in a scalable model system that is helping to ensure that quality healthcare becomes a basic right throughout Madagascar and the world.

On reverse are some of our top priorities for the coming year.

We invite you to support our vital mission today.
ANNUAL GIVING FUNDS

Every generous act, no matter the size, becomes part of the whole of our work. Gifts of $10, $50, $100, or more help increase access to quality care, save lives and break cycles of poverty and disease.

Unrestricted Fund

Unrestricted gifts are essential and enable PIVOT to operate on a day-to-day basis, capacitate innovation and provide fuel for growth, while having the flexibility to respond to emergencies and take advantage of opportunities as they arise.

Maternal and Reproductive Health Fund

A gift of $20 will cover the cost of one new mother support kit, a gift of $150 will cover the cost of one C-section supply kit, a gift of $1,000 will cover the cost of nutrition packages for over 200 new mothers and a gift of $5,000 will provide essential newborn supplies for over 1,600 babies. Since the start of our intervention in 2015, the chance of a woman dying from childbirth in her lifetime has dropped from 1 in 14 to 1 in 18 in our district. Your gift of any amount will help increase patient access to information and supplies for family planning, enable women to receive pre- and postnatal care and provide high quality and safe deliveries that save the lives of thousands of mothers and their babies.
MAJOR GIFT OPPORTUNITIES

$10,000 – Provide Essential Medicines to Remote Communities
Community Health Workers engage at the front line of our work to provide essential medicines for malaria, diarrhea, pneumonia and common illnesses in remote communities where the majority of people in the district live. Your gift will secure six months’ worth of essential medicines for people living in these remote communities.

$15,000 – Ensure Patient Access to Comprehensive Lab Services
The medical laboratory at the district hospital provides more than 8,000 patients each year with medical imaging and diagnostic services that assist with surgeries, treatment and prevention of life-threatening illness and disease. Your gift will cover patient lab fees for half a year and safeguard our promise that patients never have to pay for lab tests that save lives.

$20,000 – Deliver Essentials to New Mothers and Babies
Last year, our team supported the safe delivery of over 1,132 babies. We ensure every new mother has the materials and resources she needs to care for herself and her baby after giving birth. Your gift will provide one year’s supply of warming blankets, food for pregnant women and new mothers, and other supplies critical to ensuring maternal and child health.

$75,000 – Keep the Ambulance and Referral Fleet Running
Madagascar’s rough terrain and frequent flooding amplify the challenge of accessing healthcare and underline the necessity to have well-maintained vehicles. Your gift will support the district’s first-ever ambulance fleet for one year. This network of 3 ambulances, 8 paramedics and 7 ambulance drivers operates 24/7 and last year enabled 1,877 successful referrals and traveled over 50,588 kilometers.

$135,000 – Light the Health Centers with Solar Energy
The majority of our health centers are remote and off-grid, therefore refrigeration relies on battery packs, and deliveries and other procedures are performed by candlelight. Your gift will provide solar power systems that equip five of our health centers with lighting to help our medical team treat patients and support safe deliveries, as well as refrigerate specimens and life saving medicines.
$200,000 – Build a Model District Hospital

The district hospital is the central facility of our model district health system. Your gift will support a major renovation of the hospital, providing everything from a new infectious disease unit to electrical infrastructure improvements and much-needed renovations of the main in-patient wards.

Specific parts of the District Hospital renovation may be supported through discrete gifts:

- **$50,000 – Build a Welcome Center** and create a bright, inviting space dedicated to patient registration, triage, and storage of medical records.

- **$50,000 – Build an Infectious Disease Pavilion** and provide a dignified and well-equipped isolation unit to diagnose and treat patients with severe infectious diseases.

- **$35,000 – Rehabilitate the Main Inpatient Wards** along with the primary care unit, delivery ward, laundry service area, and restrooms to provide modern and hygienic facilities.

- **$20,000 – Establish a Blood Bank** in a new building as the first and only one in the region, complete with refrigeration and electricity for proper storage and preservation of blood tests and samples.

- **$20,000 – Construct a Patient Family House** next to the hospital to provide patients’ families with shelter and safety, and a place to prepare meals for their loved ones while they receive treatment.

- **$10,000 – Furnish Beds, Tables and Blankets** and equip the hospital with the most basic essentials necessary for dignified care (10 beds, bedside tables, and new blankets and sheets to replenish one year’s linen supply).
